

How to read the lab test results:

1ml Lab Test Volume (30ml bottle) 1g = 1ml 30,000mg = 30ml

Each test amount is 1ml (1/30 of the whole bottle)

1 gram of weight equates to 1 milliliter of volume

This means there are a total of 30,000mg of weight in a 30ml bottle

Test Results Summary: (Right hand side of chart)

300mg Lab Results

Total THC 0.02 %	This is under the legal limit which is .3%
Total THC 0.25 mg/g	This means that there is .15mg THC per serving
Total CBD 1.09 %	This percentage is of the full 30ml bottle. This means there is 109% of 300mg of CBD
Total CBD 10.95 mg/g	This means there are 328.5mg of CBD in this bottle

500mg Lab Results

Total THC 0.08 %	This is under the legal limit which is .3%
Total THC 0.75 mg/g	This means that there is .45mg THC per serving
Total CBD 1.67 %	This percentage is of the full 30ml bottle. This means there is 100.2% of 500mg of CBD
Total CBD 16.68 mg/g	This means there are 501mg of CBD in this bottle

750mg Lab Results

Total THC 0.05 %	This is under the legal limit which is .3%
Total THC 0.52 mg/g	This means that there is .31mg THC per serving
Total CBD 2.51 %	This percentage is of the full 30ml bottle. This means there is 100.4% of 750mg of CBD
Total CBD 25.14 mg/g	This means there are 754.2mg of CBD in this bottle

1500mg Lab Results

Total THC 0.21 %	This is under the legal limit which is .3%
Total THC 2.10 mg/g	This means that there is 1.26mg THC per serving
Total CBD 6.21 %	This percentage is of the full 30ml bottle. This means there is 124.2% of 1500mg of CBD
Total CBD 62.10 mg/g	This means there are 1,863mg of CBD in this bottle
